ABOUT ME

📅 Birthdate: 18/09/2003

👤 Single

🇨🇴 Colombian

I am a Systems Engineering student at the Konrad Lorenz University Foundation, focused on Web Development. My goal is to actively contribute in all stages of software construction, using cutting-edge technologies and constantly learning to apply them in high-impact projects. Aspiring to become a professional Software Architect, I seek to work in collaborative and ambitious teams, with goals and objectives that can revolutionize the world. My passion for technology and my commitment to teamwork motivate me to face new challenges and contribute to the success of innovative projects.

EDUCATION

• **Software Engineer: 2020 - 2023**

Konrad Lorenz University Foundation, Bogotá D.C.

I have participated in research groups such as: Data Analytics and Programming Marathons

• **Platzi: 2021 - Actually**

Virtual educational platform student

• **High School: 2008 - 2019**

San Felipe Neri School, Bogotá D.C.
