ABOUT ME

📅 Birthdate: 18/09/2003

👤 Single

🇨🇴 Colombian

I am a Systems Engineering student at the Konrad Lorenz University Foundation, focused on Fullstack Web Development. Passionate about sports and music. I am aspiring to become a Software Architect to lead development teams. I have knowledge in the analysis, design and implementation of web applications with more than a year of experience in various technologies working with various projects. I seek to work in collaborative and ambitious teams, with goals and objectives that can revolutionize the world. My passion for technology and my commitment to work motivate me to face new challenges and contribute to the success of innovative projects.

AREAS OF SPECIALIZATION

- **Backend Technologies:** PHP, Laravel, Node.JS, JavaScript, Typescript, Java, SpringBoot, Python.
- **Fronted Technologies:** HTML, CSS, Angular, React, Express, Bootstrap, Tailwind.
- **Databases:**
 - **SQL:** MySQL, PostgreSQL, Microsoft SQL Server, MariaDB, Oracle.
 - **NoSQL:** MongoDB, Firebase.
- **Other Technologies:** Git, Linux, API RESTful, Trello, Jira, PowerBI, Excel, Xampp, Postman, Typo3.
- **Software Architectures:** Agile Methodologies and Design Patterns.

LANGUAGES

- Spanish · Native
- English · Conversational
- French · Basic
